

Subject: Computing Sciences Courses which meet in computer labs

Updated: August 24, 2008 to add CSC 410, CSC 420 and CSC 431

Updated: July 13, 2009 to reflect elimination of Powell lab and 100 level CIS courses

Updated: August 3, 2009 to reflect Duke's preferences

General: Courses listed on this sheet are held in computer labs scheduled by Robin Straka. If there is a preference for a particular lab because of special software or instructor desire then I have listed the room preference requests. If a course is listed with no entry next to it then the course is scheduled in any available computer lab. If the course is not listed then the course is not taught in a computer lab.

CIS – Computer Information Systems

211 – Preference for Alex, Maureen is KOBC 313. Preference for Duke is Duke 303

216 – Preference for Duke is Duke 303

220 - Mooney 202

245 – Duke 304

301

310 - Duke 303

320 - Duke 304 lab and Duke 303 lecture

325

330 – Preference for Duke is Duke 303

345 – Duke 304

430 – Preference for Duke is Duke 303

Multimedia Authoring

MMA 460 – Duke 303

CSC – Computer Science
